

Company announcement 11/2020 October 29, 2020

Financial report for the first nine months of 2020

Revenue decrease of 7.8% to DKK 2.081m and an operating profit margin before special items of 5.3% in the first nine months of 2020

Performance highlights for the third quarter of 2020

- Group revenue decreased by 14% to DKK 658m in Q3 2020 compared to Q3 2019. Positivly, revenue from life sciences international continued the growth path with revenue increasing by 29% to 122m while revenue from life sciences Denmark increased by 3.2% to 59m. In Q3 2020 other life science generated more revenue than the Novo Nordisk group
- Revenue from the Novo Nordisk Group continued the expected decline (-27%). Consequently, the share of NNIT's revenue from clients outside the Novo Nordisk Group increased to 75% in Q3 2020 from 71% in Q3 2019
- The COVID-19 situation continued to impact performance in Q3 2020 due to the ongoing uncertainty leading to delays of tenders and projects
- Operating profit margin before special items at 3.8% in Q3 2020 compared to 9.0% in Q3 2019
- Net profit at DKK 9m in Q3 2020 compared to DKK 50m in Q3 2019 due to the lower operating profit and negative impact from net financials
- Free cashflow at a conversion rate of 78%
- Order backlog for 2020 at the beginning of Q4 2020 at DKK 2,691m, a decrease of 7.9% compared to the same time last year impacted by a large decline of 27% from the Novo Nordisk Group
- Outlook for 2020:
 - COVID-19 continues to impact our business negatively by delaying project work and tenders and we now expect that our performance for 2020 will be at the bottom of previously guided intervals. Hence, our guidance for 2020 is specified as follows assuming no further deterioration in relation to the COVID-19 situation:
 - Revenue growth of around -8% in constant currencies
 - Operating profit margin before special items of around 6% in constant currencies
 - Level of investment (CAPEX) is 5-7% of total revenue (unchanged)

Per Kogut, CEO at NNIT comments: "NNIT's Q3 was driven by double digit profitable growth in the international life sciences segment. The Novo Nordisk Group impacted the growth negatively as expected. In addition, the private & public business contracted in Q3. The Q3 performance evidences the importance for NNIT of having different main business segments to execute on during challenging times."

Financial Overview and guidance 2020

About NNIT

NNIT A/S is one of Denmark's leading IT service providers and consultancies. NNIT A/S offers a wide range of IT services and solutions to its customers, primarily in the life sciences sector in Denmark and internationally and to customers in the public, enterprise and finance sectors in Denmark. As of September 30, 2020, NNIT A/S had 3,035 employees. NNIT has approximately 400 clients of which around 150 are located outside Denmark. Some 25% are international life sciences clients. For more information please visit www.nnit.com.

Conference call details

NNIT will host a teleconference October 29, 2020 at 10:30 CET about the financial report for the first nine months of 2020. Please visit the NNIT webpage at www.nnit.com to access the teleconference, which can be found under 'Investors – Events & presentations. Presentation material will be available on the website approximately one hour prior to the start of the presentation.

¹⁾ Special items comprises restructuring costs related to the cost restructuring plan and other special events

²⁾ Financial metrics are moving annual total (MAT), i.e. annualized. Cash to earnings (three-year-average) is calculated using the past 36 months

³⁾ Net profit/average invested capital

⁴⁾ Backlog represents anticipated revenue from contracts or orders executed but not yet completed or performed in full, and the revenue that is expected to be recognized in the future

COVID-19 update

In O3 2020 the business continued to see the impact of the COVID-19 situation. The private & public segment showed less project activity with customers delaying projects. Further, the SLA business was impacted due to delays of tenders that have postponed revenue which originally was expected to be realized in Q3 2020. Positivly, the life sciences business including China showed more resilience, which can be seen in the realized growth rates.

Business highlights

Key wins since the Q2 2020 company announcement:

- Several agreements within winning solutions SAP, Data&AI, Hybrid Cloud and Veeva for new and existing international life sciences customer in both EU, US and China representing a mid double-digit DKK million amount
- Service desk operations and monitoring agreement with Copenhagen Airport representing a mid double-digit DKK million amount over a five-year-period
- IT environment, applications and infrastructure carve out agreement for a new life sciences customer Orifarm representing a lower double-digit DKK million amount over a one-year period
- IT management consulting framework agreement to support the digital transformation of UFTS (The Ministry of Taxation) for a five-year period

Business and cost restructuring plan

In Q3 2020, the business and cost restructuring plan progressed in line with expectations. The automation initiatives set forth in the cost restructuring plan also progressed as expected in order to enable continued high-quality services and stable operation towards the customers.

In Q3 2020 utilization was still impacted by COVID-19 resulting in a slight underperformance compared to target, but the underlying measures to support the targeted utilization have been implemented and are expected to have full effect when the situation normalizes.

Tax	17	29	-40.7%	48
Effective tax rate	22.8%	18.8%	4pp	21.0%
Net profit	58	125	-53.5%	183

Revenue in reported currencies decreased by 14% in Q3 2020 (-13% in constant currencies) to DKK 658m, mainly impacted by the expected decline from the Novo Nordisk group (-27%) and the enterprise segment (-23%) due to the phasing-out of the Pandora outsourcing agreement. The decline was partly offset by growth in life sciences international and life sciences Denmark of 29% and 3.2% respectively.

9M 2020 revenue in reported currencies decreased by -7.8% (-7.7% in constant currencies) to DKK 2,081m due to the same reasons as mentioned above. The decline was partly offset by growth in life sciences international and life sciences Denmark of 22% and 16% respectively whilst the public segment had growth of 6.7%. Revenue from the finance segments declined by 12%.

Excluding business from the Novo Nordisk Group, revenue growth was 1.2% (0.5% organic) in 9M 2020.

Cost of goods sold decreased by 9.2% to DKK 578m in Q3 2020 and by 6.3% to DKK 1,805m in 9M 2020 compared to the same period last year. The decrease in cost is mainly due to the implementation of the cost restructuring program to also match the reduced business activity.

Gross profit decreased by 36% to DKK 80m in Q3 2020 leading to a gross profit margin in reported currencies of 12% compared to 17% in the same period last year. The decline

Østmarken 3A 2860 Søborg

Denmark

was partially due to one-off license sales with low margins. In 9M 2020 gross profit decreased by 17% to DKK 276m leading to a gross profit margin in reported currencies of 13% compared to 15% in the same period last year.

Sales and marketing costs declined by 6.6% in Q3 2020 and by 3.9% in 9M 2020 compared to the same periods last year due to staff reductions as part of the cost restructuring plan.

Administrative expenses decreased by 2.0% in Q3 2020 and by 4.1% in 9M 2020 compared to the same periods last year due to cost reductions as part of the cost restructuring plan.

Operating profit before special items ended at DKK 25m in Q3 2020 and 110m in 9M 2020. This corresponds to an operating profit margin before special items of 3.8% in Q3 2020 (9.0% in Q3 2019) and 5.3% 9M 2020 (7.0% 9M 2019).

Net financials in Q3 2020 were negative with DKK 10m which is a decrease of DKK 17m compared to Q3 2019. Net financials in 9M 2020 was -10m compared to 12m in 9M 2019. The negative development in Q3 2020 compared to same period last year was due to currency fluctuations especially from USD receivables.

The effective tax rate for Q3 2020 was 5.5%, a decrease of 10.4pp compared to Q3 2019 due to a different composition in income from subsidiaries and consequently a different composition of tax rates. In 9M 2020 the effective tax rate was 22.9%, up by 3.7pp compared to 9M 2019. This is explained by the negative adjustment regarding previous years.

Net profit in Q3 2020 was DKK 9m compared to DKK 50m in Q3 2019. Net profit was impacted by lower revenue & business activity and by negative impact from net financials.

For a detailed performance overview in both reported and constant currencies please see note 8. Comparisons in this financial report are hereafter in reported currencies. NNIT's major currencies have depreciated giving operating profit margin in 9M 2020 a headwind of 0.1pp (average Q3 2020 compared to average 2019 exchange rates) which decreased the cost of NNIT's offshore centers in DKK. Revenue growth was impacted negatively by 0.1pp mainly due to depreciation of USD (average Q3 2020 compared to average 2019 exchange rates).

Revenue

Total life sciences revenue decreased by 8.3% in Q3 2020 compared to the same period last year due to the expected decline from the Novo Nordisk Group (-27%). Revenue from projects increased by 7.4% in Q3 2020 while revenue from service level agreements decreased by 21%. Total life sciences revenue decreased 9.6% in 9M 2020 compared to 9M 2019 due to the reasons mentioned above. Further details on revenue and profit development are explained below.

Novo Nordisk Group:

Revenue from the Novo Nordisk Group decreased by 27% in Q3 2020 and 27% in 9M 2020 compared to the same periods last year. Revenue is as expected significantly impacted by the loss of the large application maintenance agreement and the renewed operation maintenance agreement which both impacts the revenue and profitability from January 1, 2020. Further, project revenue continued to decrease with 17% compared to both Q3 2019 and 9M 2019.

As a consequence of the continued large decline in revenue from the Novo Nordisk Group and high growth from other clients, the share of NNIT's revenue from clients outside the Novo Nordisk Group increased to 75% in Q3 2020 from 71% in Q3 2019.

Life sciences international:

Revenue from international life sciences increased by 29% in Q3 2020 compared to the same period last year driven by strong growth in Europe and US. In Q3 2020 the Chinese business rebounded and seemed to be less impacted by COVID-19 with revenue at same levels as Q3 2019. The growth in EU and US is driven by Veeva related projects, Production IT (Manufacturing Execution System) enabled by the HGP acquisition and digitalization of clinical trials. Revenue increased by 22% in 9M 2020 compared to 9M 2019.

Danish life sciences:

Revenue from Danish life sciences increased by 3.2% in Q3 2020 compared to Q3 2019 mainly driven by the Association of Danish Pharmacies partly offset by less project activities at a number of other customers. Revenue increased by 16% in 9M 2020 compared to 9M 2019.

Gross profit and operating profit

In Q3 2020 gross profit margin was 15%, a decrease of 5.7pp compared to Q3 2019. Gross profit margin in 9M 2020 was 16%, a decrease of 4.3pp compared to 9M 2019. The gross profit decline was due to the loss of the application maintenance agreement and price reductions on the prolonged operations maintenance agreement with the Novo Nordisk Group. The cost restructuring program has been executed as planned but could not fully compensate for the significant loss of business from the Novo Nordisk Group. However, gross profit margin in other life sciences showed a healthy increase in Q3 2020 and 9M 2020 compared to same periods last year supported by the cost restructuring program and high growth in the project business.

Operating profit margin before special items was 6.1% in Q3 2020 (12% in Q3 2019) and 7.5% in 9M 2020 (12% in 9M 2019).

Revenue

Revenue from private & public decreased by 19% in Q3 2020 and by 6.0% in 9M 2020 compared to the same periods last year.

Revenue on projects in the private & public segment decreased by 11% and revenue from service level agreements decreased by 25% in Q3 2020 compared to Q3 2019. Further details on revenue and profit development are explained below.

Østmarken 3A 2860 Søborg Denmark

Enterprise customers:

Revenue decreased by 23% in Q3 2020 and by 10% in 9M 2020 compared to the same periods last year. The expected decline in Q3 2020 was due to the phasing out of the Pandora outsourcing agreement.

Public customers:

Revenue decreased by 6.9% in Q3 2020 and increased by 6.7% in 9M 2020 compared to the same periods last year. The revenue decrease in Q3 2020 was driven by reduction in project activity with UFST (The Ministry of Taxation), Sund & Bælt and DSB.

Finance customers:

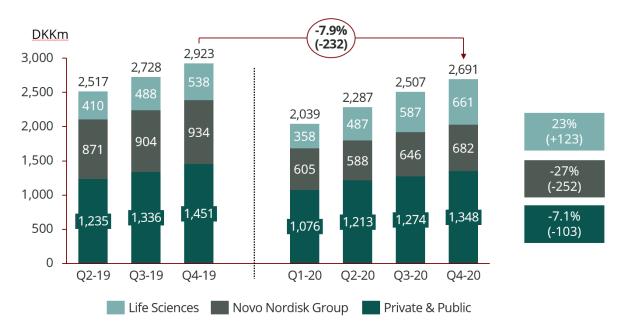

Revenue decreased by 25% in Q3 2020 and by 12% in 9M 2020 compared to the same periods last year. The revenue decline in Q3 2020 was mainly due the expiry of the contract with Alka (acquirered by Tryg) and hardware sale in Q3 2019.

Gross profit and operating profit

In Q3 2020 gross profit margin was 8.9%, a decrease of 3.5pp compared to Q3 2019. The gross profit margin in 9M 2020 was 10%, an increase of 1.7pp compared to 9M 2019. Operating profit margin before special items was 1.2% in Q3 2020 (5.8% in Q3 2019) and 3.1% in 9M 2020 (1.6% in 9M 2019)

The cost restructuring program has been executed as planned but could not fully compensate for the loss of business in Q3 2020 compared to Q3 2019.

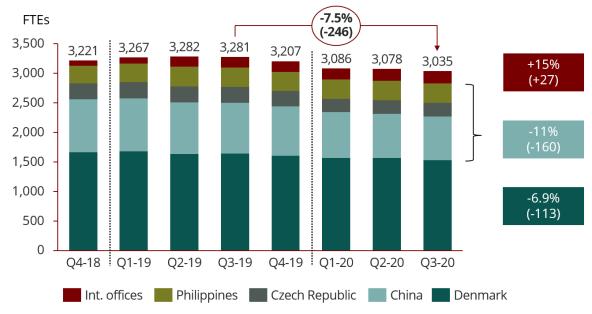

At the beginning of Q4 2020, NNIT's order entry backlog for 2020 amounted to DKK 2,691 million, which was a decrease of 7.9% compared to last year. The backlog from life sciences clients excluding the Novo Nordisk Group increased by 23% driven by international life sciences while the Novo Nordisk Group declined by expected 27% due to the loss of the large application maintenance contract and a considerable price reduction on the prolonged operation maintenance agreement. Private & public decreased by 7.1% mainly due to expiry of the Pandora outsourcing contract and COVID-19.

The high growth in NNIT's project business with low backlog visibility and a declining/stagnating multiyear outsourcing business makes the backlog numbers less useful as a predictor for revenue growth. Therefore, the backlog for the current year should be interpreted with caution.

Employees, end-of-period

As a consequence of the cost restructuring program and the loss of business with the Novo Nordisk Group and Pandora the number of employees decreased by 246 FTEs corresponding to -7.5% compared to the same time last year. The decrease was driven by China (-117 FTEs), Denmark (-113 FTEs) and Czech (-40 FTEs) while FTEs in our international offices (excluding outsourcing centers) increased by 27 FTEs in order to support the strong growth in international life sciences.

Balance sheet

Total assets at September 30, 2020 decreased by DKK 297m to DKK 2,454m compared to DKK 2,751m at September 30, 2019 primarily due to a decrease in non-current assets, trade receivables and other receivables.

Net cash and cash equivalents amounted to DKK -100m at September 30, 2020, an increase of DKK 292m compared September 30, 2019. The increase was mainly driven by cash flows from operating activities partly countered by payments related to acquisitions (DKK 53m), payment of ordinary dividend for 2019 (DKK 49m) and interim dividend for 2020 (DKK 50m).

Equity at September 30, 2020 amounted to DKK 1,134m, an increase of DKK 34m compared to September 30, 2019. The improvement was mainly due to net profits for the period offset by the payment of ordinary dividend for 2019 (DKK 49m) and interim dividend for 2020 (DKK 50m).

Investments

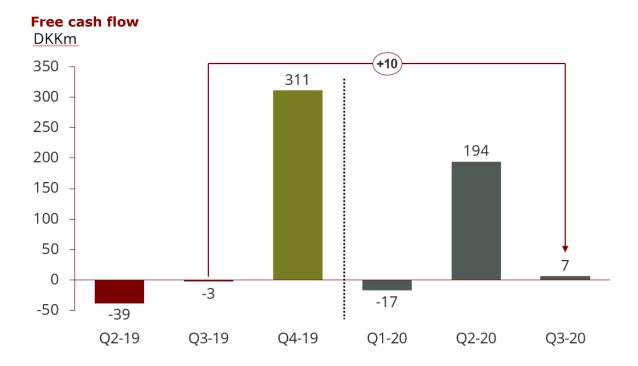

Investments excluding investments related to acquisition of subsidiaries amounted to DKK 27m in Q3 2020 compared to DKK 51m in Q3 2019.

Østmarken 3A

2860 Søborg

Denmark

The free cash flow for Q3 2020 was positive DKK 7m which was DKK 10m above Q3 2019 due to lower investments and an improvement in working capital partly countered by a decrease in net profit for the period and higher income taxes paid on account.

Events after balance sheet date

There have been no events after the balance sheet date which would have a significant impact on an assessment of NNIT's financial position as of September 30, 2020

Management statement

Statement by the Board of Directors and the Executive Management on the unaudited interim consolidated financial statements of NNIT A/S as at and for the nine months ended September 30, 2020

The Board of Directors and Executive Management ("Management") have reviewed and approved the interim consolidated financial statements of NNIT A/S (NNIT A/S, together with its subsidiaries, the "Group") for the first nine months of 2020 with comparative figures for the first nine months of 2019. The interim consolidated financial statements have not been audited or reviewed by the company's independent auditors.

The interim consolidated financial statements for the first nine months of 2020 have been prepared in accordance with IAS 34 'Interim Financial Reporting', as adopted by the European Union and accounting policies set out in the annual report for 2019 of NNIT A/S. Furthermore, the interim consolidated financial statement for the first nine months of 2020 and Management's review are prepared in accordance with additional Danish disclosure requirements for interim reports of listed companies.

In our opinion, the accounting policies used are appropriate and the overall presentation of the interim consolidated financial statements for the first nine months of 2020 are adequate and give a true and fair view of the Group's assets, liabilities and financial position as at September 30, 2020 and of the results of the Group's operations and cash flow for the nine months ended September 30, 2020. Furthermore, in our opinion, Management's review includes a true and fair account of the development in the operations and financial circumstances, of the results for the period and of the financial position of the Group as well as a description of the most significant risks and elements of uncertainty facing the Group in accordance with Danish disclosure requirements for listed companies.

Besides what has been disclosed in the interim consolidated financial statements and Management's review for the first nine months of 2020, no changes in the Group's most significant risks and uncertainties have occurred relative to what was disclosed in the Annual Report for 2019 of NNIT A/S.

Notes

Note 1

Accounting policies

The consolidated financial statements for the first nine months of 2020 have been prepared in accordance with IAS 34 'Interim Financial Reporting' and on the basis of the same accounting policies for recognition and measurement as were applied in the Annual Report 2019 except what is mentioned below.

Change in accounting estimates

As a consequence of an asset review and slower technological development of server components NNIT has increased the useful lifetime for certain servers from 3 years to 5 years. An asset review of Datacenter assets based on the first 9 years of operations in NNIT's data center in Bagsværd has led to a change in the useful lifetime of data center components from 12-20 years to 20-30 years.

The changes have positively affected net profit in Q3 2020 by 0.3 million and 9M 2020 by 10.8 million.

The financial reporting including the consolidated financial statements for the first nine months of 2020 and Management's review have been prepared in accordance with additional Danish disclosure requirements for interim report of listed companies.

See pages 57 to 62 of the Annual Report 2019 for a comprehensive description of the accounting policies applied for recognition and measurement.

The Danish operations generated 78.6% of NNIT's revenue in the first nine months of 2020 and 81.9% in the same period last year based on the location of customer purchase orders. As a consequence of the predominantly Danish revenue, we will not disclose a geographical revenue split.

Note 3 Special items

Special items comprise costs that cannot be attributed directly to NNIT's ordinary activities and are non-recurring of nature.

The costs relate to significant restructuring of the cost base and processes as well as restructuring costs related to resignation of employees due to lost contracts.

The costs comprise staff related costs as well as external costs to advisors.

Therefore, the costs are separately disclosed to allow a view of the underlying business performance and in order to compare the underlying business performance to the guidance provided by NNIT.

Q3 2020 was affected by DKK 6 million and YTD September 30, 2020 by DKK 25 million.

Note 6

Currency hedging

NNIT's objective is at any time to limit the company's financial risks.

NNIT is exposed to exchange rate risks in the countries where NNIT has its main activities. The majority of NNIT's sales are in DKK and EUR, implying limited foreign exchange risk, due to the parent company's functional currency being DKK and Denmark's fixed-rate policy towards EUR. NNIT's foreign exchange risk therefore primarily stems from transactions carried out in the currencies of other countries in which NNIT mainly operates: primarily the Chinese yuan, and, to a lesser extent, the Czech koruna, the Philippine peso, the Swiss franc and the British pound.

At present NNIT's sales in Chinese yuan, Czech koruna, and Swiss franc are not sufficiently to balance these currency risks. To manage foreign exchange rate risks, NNIT has entered into hedging contracts to hedge major foreign currency balances in Chinese yuan, Czech koruna and the Philippine peso. Due to the size of the exposure Swiss franc is not hedged.

Cumulative profit on derivative financial instruments regarding future cash flow per September 30, 2020 is recognized in Equity (Other comprehensive income) with an amount of DKK -13m before tax (DKK -11m after tax).

USD	631.74	667.03	662.15	630.76	

Currency development

NNIT has a net cost exposure in the Chinese yuan, the Czech koruna, the Philippine peso and the Swiss franc. Therefore, a depreciation of these currencies versus Danish kroner has a positive impact on reported operating profit, whereas an increase will have the reverse effect.

^{*} The above sensitivities address hypothetical situations and are provided for illustrative purposes only. The sensitivities assume the business develops consistent with the current 2020 business plan.

NNIT has hedged 90% of its net exposure in Chinese yuan (CNY hedged with CNH (CNY offshore)) and Czech koruna (CZK) for the coming 14 months.

Note 8 Performance in constant and reported currencies

Performance overview

DKK million (reported currencies)	Q3 2020	Q3 2020 (constant*)	Q3 2019	Change (reported)	Change (constant)	2019
